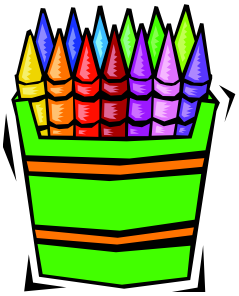
Designing an Alcohol Education Poster Activity



After researching the effects of alcohol, design a poster depicting what you have learned.

First make a list of the facts that you want to communicate to your viewers. Next make a sketch of your design on the back of this paper. Then transfer these ideas onto a large piece of poster board. Use markers, colored pencils and/or crayons to make it colorful and interesting.

You will be presenting your poster to the class. Remember, the class will want to be able to read this poster, so use your best handwriting, double check your spelling and grammar, and use your best drawing skills.

Facts that I want to include:

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

Use the back of this sheet to draw a sketch of what your poster will look like.
