

EFFECTS OF OTHER DRUGS

Name _____ Date _____ Class Period _____

????????????????
WHAT'S YOUR GUESS?

First estimate what you believe the correct answer will be for each question. Write this answer as a percentage next to "Your guess." Throughout the lesson, you will find out the correct answers. Fill those in and then create graphs to show the guesses and the correct answers.

1. In 2009, what percentage of students in 8th grade have ever, even just once, used marijuana?

Your guess = _____ %

Correct answer = _____ %

2. In 2009, what percentage of students in 8th grade have used marijuana in the past month?

Your guess = _____ %

Correct answer = _____ %

3. In 2009, what percentage of students in 8th grade have ever, even just once, used cocaine?

Your guess = _____ %

Correct answer = _____ %

4. In 2009, what percentage of students in 8th grade have used cocaine in the past month?

Your guess = _____ %

Correct answer = _____ %

5. In 2009, what percentage of students in 8th grade have ever, even just once, used cigarettes?

Your guess = _____ %

Correct answer = _____ %

6. In 2009, what percentage of students in 8th grade have used cigarettes in the past month?

Your guess = _____ %

Correct answer = _____ %

You can go to this site to find the correct answers. The site is updated annually with results from the previous year. There is also a lot of additional information about 8th, 10th, and 12th graders.
