What Would You Say?

NO!

Sometimes it is hard to think of what to say if someone is encouraging you to have a cigarette. If you think of what you might say ahead of time and practice saying it to yourself, then saying “no” may be easier when someone offers you a cigarette or other drugs.

Have fun coloring the picture and think about what you might say if Ciggy or even a friend offers you a cigarette. Write what you would say below. Please write at least 5 responses.
