

## EFFECTS OF ALCOHOL

Name \_\_\_\_\_ Date \_\_\_\_\_ Class Period \_\_\_\_\_

### Creative Writing Activity

After reading the “Facts About Alcohol” information sheet and looking at the Accident Scene poster and the Risk Taking Behavior Poster, select one of the posters and write a short story about the dangers associated with excessive alcohol use.

Incorporate information that you may have learned from the fact sheet. Tell what may have happened before the scene in the picture, what is happening during it, and what may happen after it. Remember to combine the facts you have learned about alcohol and use your creativity to make an interesting story.

Use the space below to make notes about the key points that you want to make in your story.
