

## **EFFECTS OF ALCOHOL**

### **Objectives**

1. Students will recognize that alcohol is a drug due to how the body responds to it. They will also recognize the prevalence of alcohol in our society.
2. Students will understand that even small amounts of alcohol can have negative impacts on the brains of children.
3. Students will be able to list at least three reasons why it is always wrong for children to drink alcohol.
4. Students will demonstrate an understanding of the increased dangers of drinking alcohol while taking medications.
